

THANKSGIVING DAY

THURSDAY
NOVEMBER 23, 1950

UNITED STATES NAVAL HOSPITAL
YOKOSUKA JAPAN

We pause today in traditional observance of Thanksgiving Day. Wherever American Military personnel are stationed around the world, this day will bind us closer together and to our homeland, as we express our gratitude to Almighty God for all of His many blessings. Thanksgiving Day is essentially a religious day and thanksgiving is a religious experience recognizing Divine Providence in the affairs of mankind everywhere. It is fitting that it should be observed in feasting because it is a time of rejoicing. It is also a time for prayer for God's guidance and for peace; that God may continue His blessings upon His people, that everywhere men may follow His will.

May His blessings be upon us all as we express our gratitude to Him.

W. F. JAMES
CAPTAIN, MC, USN
COMMANDING OFFICER
